Company Role:

As SFG’s Chief Executive Officer, Chad serves as leader of, and has active involvement in, virtually every area of the firm’s business. In addition to his management activities, Chad also provides investment advisory services and business consulting services.

Disciplinary Information:

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of each supervised person providing investment advice. No such legal or disciplinary material facts are applicable to Chad.

Other Business Activities:

Investment adviser representatives are required to disclose (1) participation in any investment-related business and conflicts of interest that arise, (2) any compensation, including bonuses and non-cash compensation, the supervised person receives based on the sale of securities or other investment products and an explanation of the incentives this type

of compensation creates and (3) any other business activities or occupation if they involve a substantial amount of time or pay (if less than 10% of time or income, presumed not to be substantial). The following outside business activity disclosures are made with respect to Chad:

- IMAT, LLC
- Chandana Group LLC
- Dunegrass and Dunegrass 02, LLC
- HK Management LLC
- Lakepoint Properties LLC
- IQ Companies, LLC – Manager and Member (IQ Companies owns StrategIQ)

Chad may receive compensation or profit distributions with respect to these outside business activities.

StrategIQ may recommend utilizing the services of NATC as either a custodian or trustee or both. Because StrategIQ owns an equity stake of less than 1% of the shares of the parent company of National Advisors Trust Company (“NATC”), a conflict of interest exists because the value of the equity stake of StrategIQ in NATC may increase as a result of additional revenues of NATC being attributable to StrategIQ clients referred by StrategIQ. Chad (as an indirect owner of NATC) would benefit financially from such potential increased NATC equity interest valuations. StrategIQ and Chad address this conflict in two ways: (i) disclosure to clients of this conflict of interest and (ii) each StrategIQ client has the choice to utilize the services of any company as either a custodian or trustee or both.

Additional Compensation:

Chad does not receive any economic benefit for providing or recommending advisory services, other than base guaranteed payments and discretionary bonuses provided by StrategIQ. Educational services or instructional seminars may be provided, at no cost to Chad or StrategIQ, by custodians of the assets managed by StrategIQ.

Supervision:

Each StrategIQ client works directly with investment adviser representatives that are members of a financial planning and investment advisory team assigned to such StrategIQ client. These investment adviser representatives recommend specific investment strategies developed by StrategIQ’s Investment Committee based on SFG client’s investment goals, risk tolerance and stated objectives and needs. Each financial planning/investment advisory team assigned to a StrategIQ client may include a lead, service and managing advisor, in addition to other advisory team members such as financial planning, estate and trust planning, portfolio manager or tax planning specialists. The individual acting as managing advisor for a specific team oversees such team. While Chad is an Investment Adviser Representative, he currently is not assigned to any StrategIQ client team.

StrategIQ’s Investment Committee comprises some of the firm’s executive officers, including Chad and the Chief Investment Officer, as well as some senior investment advisors. StrategIQ’s Chief Investment Officer communicates with investment adviser representatives on an ongoing basis to present new investments, explain changes to any investment allocations within a strategy or generally to discuss particular investment related news or questions. StrategIQ’s Chief Investment Officer or other members of StrategIQ’s investment department also communicate with investment adviser representatives from time to time to discuss specific trade action requests with respect to which they have questions.

All supervised persons, including Chad, must comply with StrategIQ’s compliance policies and procedures in connection with their delivery of investment advisory services, which policies and procedures are designed to provide guidance with respect to both, upholding StrategIQ’s fiduciary responsibility to act in the best interest of clients, as well as complying with regulations and best practices. Markus R. F. Sleuwen is the Chief Compliance Officer of StrategIQ and is responsible for monitoring the firm’s compliance policies and procedures to ensure that they remain current and meet regulatory requirements, for providing training to supervised persons about the firm’s compliance policies and procedures and for enforcing the firm’s compliance policies and procedures. Other Business Activities:

Investment adviser representatives are required to disclose (1) participation in any investment-related business and conflicts of interest that arise, (2) any compensation, including bonuses and non-cash compensation, the supervised

The following outside business activity disclosures are made with respect to Jeremy:

- IQ Companies, LLC - Member (IQ Companies owns StrategIQ)

Jeremy may receive compensation or profit distributions with respect to these outside business activities.

StrategIQ may recommend utilizing the services of NATC as either a custodian or trustee or both. Because StrategIQ owns an equity stake of less than 1% of the shares of the parent company of National Advisors Trust Company ("NATC"), a conflict of interest exists because the value of the equity stake of StrategIQ in NATC may increase as a result of additional revenues of NATC being attributable to StrategIQ clients referred by StrategIQ. Jeremy (as an indirect owner of NATC) would benefit financially from such potential increased NATC equity interest valuations. StrategIQ and Doug address this conflict in two ways: (i) disclosure to clients of this conflict of interest and (ii) each StrategIQ client has the choice to utilize the services of any company as either a custodian or trustee or both.

Additional Compensation:

Jeremy does not receive any economic benefit for providing or recommending advisory services, other than base guaranteed payments and discretionary bonuses provided by StrategIQ. Educational services or instructional seminars may be provided, at no cost to Jeremy or StrategIQ, by custodians of the assets managed by StrategIQ.

Supervision:

Each StrategIQ client works directly with investment adviser representatives that are members of a financial planning and investment advisory team assigned to such StrategIQ client. These investment adviser representatives recommend specific investment strategies developed by StrategIQ's Investment Committee based on SFG client's investment goals, risk tolerance and stated objectives and needs.
